EDUCATION

Poornima University

Bachelor of Technology in Computer Science (**CGPA: 9.1/10**)

Jaipur, Rajasthan

Aug 2023 – May 2027

TECHNICAL SKILLS

Languages: Java, C++, SQL, Python

Backend: Spring Boot, Spring Security, JWT, REST APIs, GraphQL, Hibernate

Core CS: Data Structures & Algorithms, Multithreading, Memory Management, DBMS

Tools & DevOps: Git, Docker, Prometheus, Grafana, Postman, Linux, VS Code, Vim

Databases: MySQL, MongoDB, Redis

PROJECTS

Vector Database Engine | C++, Performance Optimization | [GitHub](#)

Oct 2025 – Nov 2025

- Engineered a high-performance similarity search engine in C++ for processing 10k+ high-dimensional embeddings.
- Applied **centroid-based clustering** to prune search space, achieving a **60–70% reduction** in query scan size.
- Utilized memory-efficient data layouts and **modular distance computation** for scalable vector retrieval.

LeetHost | Java, Spring Boot, MySQL | [GitHub](#)

Aug 2025 – Oct 2025

- Architected a **concurrent Spring Boot backend** integrating LeetCode GraphQL APIs to process 3k+ records.
- Implemented secure authentication using **JWT**, CSRF protection, and monitored latency using **Prometheus/Grafana**.
- Optimized asynchronous task execution to maintain **<100ms response times** across concurrent users.

Multithreaded Log Search Engine | C++, Concurrency | [GitHub](#)

Nov 2024 – Dec 2024

- Developed a parallel search tool in C++ to process **100MB+ log files** using a configurable worker thread pool.
- Achieved an **O(N / T) scanning model** for high-throughput pattern matching across large-scale datasets.
- Ensured thread-safety during result aggregation and optimized file I/O for high-performance log analysis.

ACHIEVEMENTS

Competitive Programming & Problem Solving

- Ranked in the **Top 1.98% globally** on [LeetCode](#) with a rating of **2000+ (Knight)**.
- Specialist (1413)** on [Codeforces](#); **AIR 211** in Codeforces Round 1062.
- Solved **1500+ algorithmic problems** across LeetCode, Codeforces, and CSES.
- Placed in the **top 3.2%** of active users on [CodeChef](#) with a **3-star (1628)** rating.
- Secured **1st place** among 100+ participants in college-level CodeContest.

POSITIONS OF RESPONSIBILITY

Team Lead / Contributor

Remote / On-site

Hackathons and Open Source

2024 – Present

- Led development teams** in multiple university and online hackathons, managing project lifecycles.
- Contributed to open-source during **GSSOC 2024–25** with a focus on code modularity and quality.
- Moderated and contributed feature improvements to the **Sofi Discord bot** ecosystem (500+ active members).
- Mentored **100+ students** during GFG sessions to enhance their algorithmic problem-solving skills.
